

# The North Zealand Route

A long distance path connecting Helsingør and Roskilde

A map of the route can be found at

## ACCOMMODATION

Accommodation can be anything from five star hotels to primitive tent sites/shelters.

It is strongly recommended that you reserve accommodation before starting. It is vital during the peak summer holiday period (end of June to start of August).

Rather than giving details of places which may change rapidly we have chosen to give relevant website addresses that will show the latest information. We will list names of places along, or close to, the route but details need to be found on the relevant websites.

Tourist information and hotels.

There are websites and tourist information offices for Roskilde, Fredensborg and Helsingør. These list available hotels and include some, incomplete, information about Youth hostels, B and B and, primitive tent sites/shelters. As far as we know there are no hotels in Stenløse or Farum
